PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 4+ years of experience designing and delivering scalable web applications, AI-powered platforms, and distributed backend systems. Lead developer of Joyfullwell, an AI-powered SaaS platform built end-to-end for the childcare industry. Deep expertise in React.js, Node.js, TypeScript, PostgreSQL, and Redis. Proven track record across healthcare, insurance, legal, real estate, and childcare sectors. Skilled in AI orchestration, RAG pipelines, multi-agent architectures, and cloud-native deployments on AWS and Azure. Adept at leading Agile teams, building CI/CD pipelines, and shipping production-grade microservices.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, Vue3.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs, Microservices, WebSocket, Webhooks, Stripe, S3/AWS, EHR / FHIR / HL7
- **Databases:** PostgreSQL, MongoDB, Redis
- **Cloud & DevOps:** AWS, Azure, Docker, Kubernetes, CI/CD, Jenkins, Vercel, Netlify, Render, Git/GitHub
- **AI / ML:** LLM Integration, Anthropic Claude, RAG (Retrieval-Augmented Generation), Prompt Engineering, AI Workflow Automation, AI Agents, Twilio
- **Security:** JWT, OAuth 2.0, Auth0, Clerk, Session-based Auth, Role-based Access Control (RBAC)

WORK EXPERIENCE

Full Stack Developer — May 2025 – Present

Joyfullwell | New York, NY

- Built a full-stack AI-powered SaaS platform for the childcare industry from concept through production, owning frontend, backend, database, and AI integration end-to-end.
- Architected a multi-tenant, role-based system supporting 5 distinct user roles (Super Admin, Corporate Manager, Center Director, Teacher, Parent) with granular access control.
- Designed a full CRM pipeline tracking families through a 6-stage enrollment funnel with automated lead capture and marketing channel attribution.
- Integrated AI features including automated report generation, enrollment prediction, at-risk payment flagging, and an AI voice assistant for parent call handling.
- Built real-time communication tools giving parents live visibility into attendance, activities, and daily updates.
- Implemented multi-step onboarding and admin approval workflows to support scalable client acquisition.
- Delivered billing and invoicing workflows with automated payment reminders and tuition tracking.
- Owned the product end-to-end — requirements, architecture, development, QA, and documentation — validating every core feature prior to launch.

Senior Full-Stack Developer — May 2022 – May 2025

Progton Software Technologies LLP | Remote

- Architected and deployed MERN stack SaaS applications (Node.js, React.js, TypeScript, PostgreSQL) for clients in healthcare, insurance, legal, and real estate.

- Reduced page load times by 37% via code splitting, lazy loading, and caching optimizations.
- Improved API response times by 35% through database query optimization and strategic indexing.
- Designed and integrated RESTful APIs that increased data processing efficiency and overall system throughput.
- Implemented secure authentication using JWT, OAuth 2.0, and role-based access control (RBAC).
- Managed cloud deployments on AWS and Azure, maintaining 99.9% uptime SLA across production environments.
- Built responsive, cross-browser-compatible UI components following WCAG accessibility best practices.
- Led Agile sprint cycles and version control workflows using Git and GitHub across cross-functional teams.

KEY PROJECTS

- **Joyfullwell** – AI-powered childcare SaaS with CRM pipeline, multi-role access, billing, and AI voice assistant.
- **Homecare Agency Management SaaS** – End-to-end scheduling, billing, and compliance platform for home care agencies.
- **Expense & Invoice Management System** – Automated financial tracking with reporting dashboards for SMBs.
- **Applicant Tracking System (ATS)** – Full-featured recruitment platform with pipeline management and RBAC.
- **E-Commerce Web App (MERN)** – Scalable storefront with Stripe payment integration, inventory management, and admin portal.
- **Hospital Management System** – Full-stack system for patient records, appointment scheduling, and staff management.

EDUCATION

Master of Science — Project Management (Information Technology) Jun 2024

St. Francis College, Brooklyn, NY | GPA: 3.5

Bachelor of Science — Engineering Jun 2022

Acharya Institute of Technology, Bangalore | GPA: 3.5
